My Vision

My **32 years of public school experience** gives me keen insight into the role of a school board member; I can **hit the ground running**. I will pursue **Quality Schools** by seeking **lower class sizes**, greater **shared decision making** with patrons, more **flexible programs of study** for our students with an eye on **preparing all** students for **critical post high school education**. As a fiscal conservative, **keeping tax rates low** will be a priority as well.
